EXPERIENCE

Junior Developer, Blue Spark Business Technologies July 2025 – Present

- Developed a backend system using FastAPI with SQLAlchemy and PostgreSQL for data management and SvelteKit for a responsive and robust frontend with multi-tenant support.
- Designed KPI and performance tracking modules with dynamic timeline filtering, enabling real-time analytics and reducing manual reporting time by 40%.
- Collaborated with frontend engineers to deliver 20+ reusable UI components using SvelteKit, improving development efficiency and feature delivery speed by ~35%.

Backend Developer, Spring of Knowledge Academy Nov 2024 – Feb 2025

- Built a scalable backend using FastAPI and PostgreSQL to manage media uploads, content moderation, and real-time site sync.
- Designed custom APIs for gallery and event management, reducing manual content upload by 40%.
- Implemented secure workflows and ensured system reliability with Next.js and Python.

Full Stack Developer, Ethiopia for All Initiative Oct 2024 – Jan 2025

- Led backend development and integration for the platform using Node.js, Express, and React.
- Integrated Chapa payment gateway for secure online transactions.
- Adapted to changing client requirements with constant stakeholder meetings and ensuring robust, maintainable code.

EDUCATION

Bachelors of Science in Software Engineering

HiLCoE School of Computer Science and Technology, Addis Ababa, Ethiopia – 3.75 GPA

Software Engineering Fellowship (Advanced Data Structures & Algorithms)

A2SV – Africa to Silicon Valley – Selected from top 9% of applicants across Africa

SKILLS

- **Front End:** Next, React, Svelte Kit, JavaScript, TypeScript, TailwindCSS, Framer
- **Back End:** Python, FastAPI, Node.js, Express.js, BetterAuth, Nest.js
- **Database:** PostgreSQL, MongoDB, SQL, SQLite, Firebase
- **Other Tools:** GitHub, Docker, Figma, Selenium, ERPNext, Postman, and SEO.
- **Soft Skills:** Collaboration, Adaptability, Problem Solving, Analytical Thinking, Details Oriented
